Brand & Identity Proposal

Prepared for Spire Tea Head Office

Live Implementation:

spire-brand-system-proposal.vercel.app

PAGE 2 — Executive Summary

This document outlines a structured identity system designed to reduce visual variation and improve internal consistency across digital and communication materials.

Deliverables:

- Visual Style Guide
- Website Alignment Notes
- Email Signature System
- Product Information Template

PAGE 3 — Identity System Overview

Website hero.

PORTFOLIO PROPOSAL

Brand System & Web Alignment Proposal

Developed in direct response to the Project-Based Brand & Identity scope. Focused on visual consistency, controlled application, and practical internal usability.

VIEW IDENTITY SYSTEM | DOWNLOAD BRAND OVERVIEW (PDF)

Explanation:
Color restraint chosen to reflect sourcing credibility.
Serif headline supports heritage positioning.
Sans-serif body ensures digital clarity.

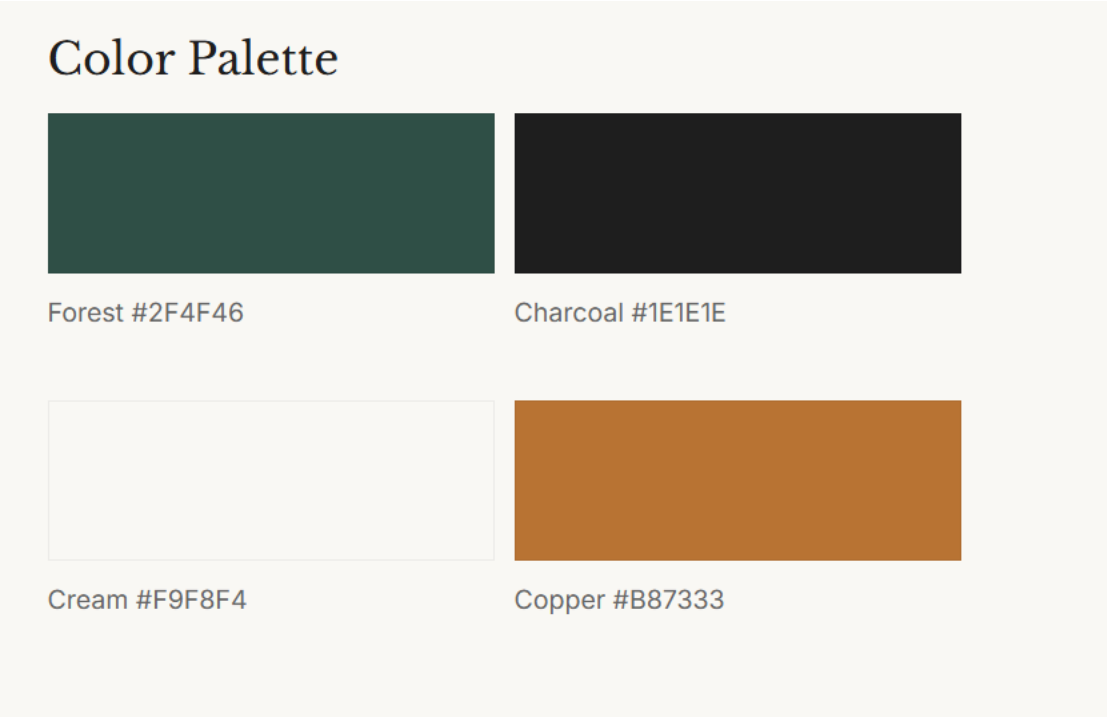
PAGE 4 — Logo Usage & Spacing

Logo area from site.

Explain:
Clear space logic prevents visual crowding.
Minimum size ensures legibility across digital and print.

PAGE 5 — Color Architecture

Color section.



Explanation:
Accent limitation prevents visual noise.
Neutrals reinforce stability and professionalism.

PAGE 6 — Typography Hierarchy

Heading stack from website.

Typography System

Libre Baskerville

Inter Sans-Serif Body (150% Line Height)

Explanation:
Defined scaling ensures predictable hierarchy.
Text width control improves readability.

PAGE 7 — Website Alignment

Buttons and content containers.

Website Brand Alignment

Goal: Align look and feel without restructuring content.

Button Interface

PRIMARY CTA | SECONDARY

Radius: 2px | Padding: 14px 30px

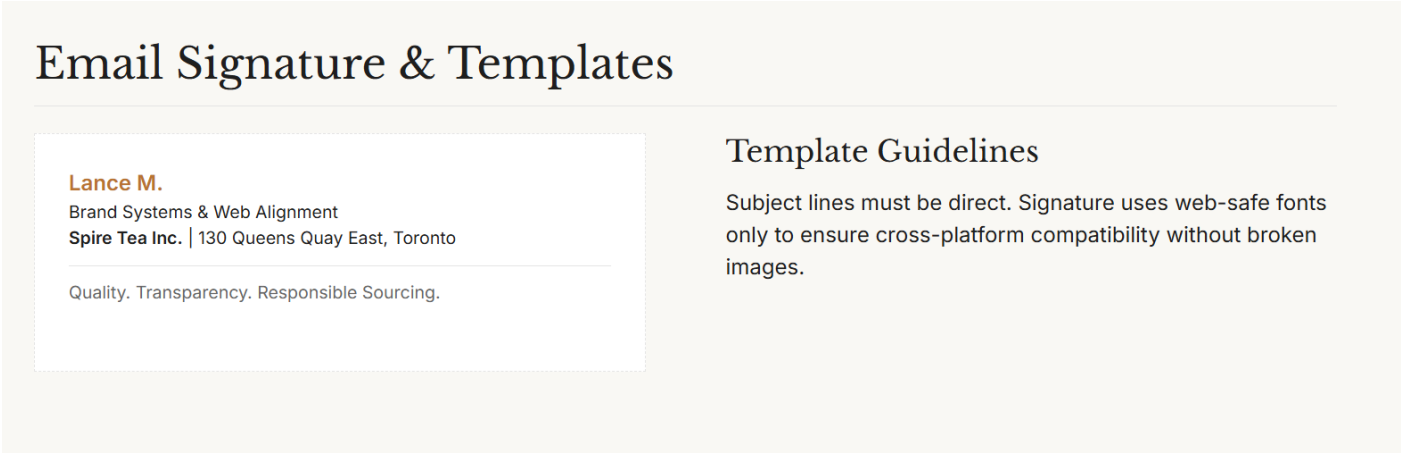
Content Adjustments

- • Max layout width: 1100px
- • Images: Neutral tone / Consistent crop
- • Footer: Single background color, structured block

Explanation:
CTA hierarchy clarified.
Spacing normalized.
Visual rhythm standardized.

PAGE 8 — Email System

Signature preview.



Explanation:
Copy-paste simplicity reduces implementation friction.

PAGE 9 — Product Information Template

Product sheet section.

Product Information Sheet

Assam Black Tea — Grade OP

Origin: Assam, India | Processing: Orthodox

Certifications: Organic, RA, Fair Trade

Specifications:
Moisture Content < 7%
Leaf Grade: Orange Pekoe
Packaging: 25kg multi-wall kraft bags

Traceability:
Batch Code: AST-OP-2026-01
Facility: Spire Tea Head Office

Explanation:
Structured grid supports sales clarity and traceability.

PAGE 10 — Implementation Roadmap

Phase 1 — Audit & System Definition (Week 1)
• Review existing visual materials and website components
• Identify inconsistencies in typography, spacing, and color usage
• Define core identity rules (color hierarchy, type scale, spacing system)

Phase 2 — Website Brand Alignment (Week 2)
• Apply typography and spacing normalization
• Standardize CTA logic and container widths
• Implement visual hierarchy adjustments (non-structural)

Phase 3 — Communication Templates (Week 3)
• Develop HTML email signature system
• Create structured Product Information Sheet template
• Test for usability and internal deployment readiness

Phase 4 — Documentation & Handoff (Week 4)
• Compile formal Style Guide PDF
• Provide implementation notes
• Deliver final assets and deployment-ready files

Total Duration: 4 Weeks
Estimated Time Commitment: 8–12 hrs/week (project-based scope)
